RESPONSE TO RESTRICTION/ELECTION

SIR:

Responsive to the Office Action mailed on July 28, 2005, the following is applicant's election.

The Examiner has indicated that the Species depicted in Figs. 1, 10, 18 are patentably distinct from each other. Applicant has been requested to elect a single Species for initial prosecution on the merits. The Examiner has indicated that currently claim 1 is generic to all of the Species.

Applicant respectfully traverses the Restriction/Election Requirement, based on the fact that the only distinctions between the indicated Species are the relative sizes of the clamps, and the relative shapes of their jaws or clamping noses. However, these features are not determinative of the novelty and patentability of these devices.

U.S. Patent Application of Panosian, "Spring Clamp System"  
Election – Serial No. 10/706,491 – Art Unit:

Nevertheless, applicant provisionally elects the Species illustrated in Fig. 1. In this connection, it is noted that all of claims 1-27, with the exception of claim 17, read on the elected species. Applicant reserves the right to file continuation and/or divisional applications on all material not covered by this election.

This application is now believed to be in condition for examination on the merits. Early examination is, accordingly, respectfully solicited.

*Applicant hereby petitions that any and all extensions of time of the term necessary to render this response timely be granted. COSTS FOR SUCH EXTENSION(S) AND/OR ANY OTHER FEE DUE WITH THIS FEE DUE WITH THIS PAPER THAT ARE NOT FULLY COVERED BY AN ENCLOSED CHECK MAY BE CHARGED TO DEPOSIT ACCOUNT #10-0100.*
